## EXPERIENCE

**NOVOCURA TECH HEALTH SERVICES** | SOFTWARE ENGINEER  
March 2021 – Present | Bangalore

**ELITMUS EVALUATION PVT LTD** | FULL STACK DEVELOPER  
July 2018 – Dec 2020 | Bangalore

- Used React to revamp the old, slow, online coding platform of eLitmus, into a new, faster UI, which helps the sales team with their pitch to customers.
- Designed and implemented proctoring and streaming solutions using WebRTC for Online tests.
- Designed and developed eLitmus Cash - a reward points system for eLitmus candidates.
- Drove the pan organization change to adapt Docker for deployment process.
- Introduced banner ads space in website with proper analytics for selling to customers.
- Helped considerably reduce candidate queries by introducing a notification system, implemented using Web Push API
- Major work on improving UI/UX of the main site [www.elitmus.com](#)

**KILOBYTE TECHNOLOGIES** | FRONTEND DEVELOPER, INTERN  
June 2017 – Mar 2018 | Ghaziabad

- Worked as a front end developer Intern for web and app (hybrid) development.
- Developed an eCommerce based app and enhanced two other LMS based Apps.
- Worked in development of an online coffee subscription platform for US Based client.
- Worked in development of order placing/tracking mobile apps for a purified mineral-water supplier in Delhi.

## PROJECTS

**KAFAL THEME - OPEN SOURCE** | WORDPRESS DEVELOPER

Designed a clean UI theme for bloggers. Currently active on 100+ sites. [1]

**NOTIFICATION APPLICATION FOR COLLEGES** | APP DEVELOPER

Worked with another teammate on creating an Android application for creating, publishing and viewing notifications related to college. [1] [2]

**COLLEGE WEBSITE FOR BTKIT** | WORDPRESS DEVELOPER

Redesigned our college's website. Helped faculty find their way around the CMS UI, so that they could put their own relevant content on the website. [1]
